Subject: rates increase

Hi

I live at 31b Sholl Street, Roebourne. I received a letter last week advising me that my rates had increased. My previous rates were 1883.68 and my new rates are 2176.84. This seems high, especially considering the value of my property has decreased by 34.5%. The previous valuation was \$28,600 and the new value is \$18,720. How can you increase my rates while the whole value of the neighbourhood is going down? Why don't you folks do your job and pick up the trash all over streets, fix the broken windows in all the buildings around town, lay some footpaths on the side of the roads, fix all the busted street lights, fix the water fountain at Andover Way and get rid of all the feral cats and THEN once thats done and the neighbour value increases then you can increase my rates!
