

04th November 2013

Shire of Roebourne
PO Box 219
Karratha WA 6714

Attention: Mr Chris Adams
Chief Executive Officer, Shire of Roebourne

Dear Chris,

Re: POINT SAMSON FORESHORE MANAGEMENT SUBMISSION

I have recently become aware of the Point Samson Foreshore Management Plan and wish to formally lodge my objection to the SoR regarding two proposals detailed in the document.

There are some good initiatives/intentions with the plan which I'm sure will be a positive outcome for the town but, I strongly object to the proximity of short term Car Parks/amenities across the road from residential housing. I refer to the proposed short term car park/amenity/access to the beach at the junction of Meares Drive & McCourt St & the short term car park near the Look Out, at the top of Meares Drive.

The other concern is the systematic removal of Tamarisk trees along the foreshore.

Regarding the first issue, I don't believe it is necessary to have a Car Park/amenity or access to the beach at the McCourt St location when there is a designated access to the beach 50m up the road. The Car Park at the Hall is underutilised. Signs could be placed there i.e. Scenic walk along Meares Drive to Look Out. Furthermore, I feel we should be encouraging people to exercise & walk.

It would appear contradictory to gouge out another access to the beach when the adjacent signage warns of a fragile environment which requires protection.

The problems for residents created by a Car Park/amenity on Meares Drive, far outweigh the benefits for the following reasons:

Traffic constantly coming & going, dog/people/traffic interaction, dog excrement, reverse horns, litter, rowdy behaviours, burn outs, drinking, drugs, car doors open/windows down with loud music.

There is also a concern idle minds may lead to vandalism & mischievous behaviours which residents will bear the brunt of. (particularly at night)

Another intrusion of privacy residents will endure is, motorists parking on the verge directly in front of properties, regardless of whether the short term car parks are full. To put our concerns into perspective, just a few people loitering across the road having a conversation is noise pollution.

Some of the above issues are already, to a small degree, a problem for residents. Car Parks & amenities will only serve to exacerbate an undesirable situation which is in our face, so to speak.

My family & our guests enjoy time spent on the east side of the house, soaking up the view in peace & quiet & so do other householders (in Meares Drive) at their place of residence. We'd like to continue enjoying the ambience.

In planning the town's future, we all need to be mindful to engineer out potential trouble spots.

The second issue I'm deeply concerned with is the systematic removal of Tamarisk trees & proposed management strategy of beach sand movement.

The Tamarisk trees have protected the foreshore in Samson for approx. 50 yrs now. Some will argue they are not native & have to go, however, please consider all the positive characteristics of the tree, such as; bank stability, shade, acting as a wind break, a site for birds to nest, excellent sand barrier. Another important characteristic of the tree is, it is maintenance free. It doesn't require irrigation.

I refer you to the attached photo taken outside the Samson Tavern on the Tamarisk tree line. This photo was taken in 2011. On this occasion there wasn't a storm surge. I don't for one minute think the proposed sand movement barriers depicted in the Management plan will have any stabilising effect at all. In fact, quite the opposite.

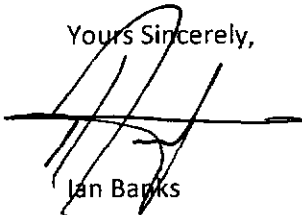

I believe the trees have more than demonstrated their suitability & benefits to the shoreline stability & infrastructure behind them.

I urge the SoR to think carefully about the impact to residents & businesses who have invested here. The Foreshore management plan, as it stands, may suit Dunsborough but some of the proposals in it clearly do not suit a Category D cyclone area, such as Point Samson.

Please see attached petition and photo in support of my submission.

I look forward to your response.

Yours Sincerely,

Ian Banks

Hi John & Deb,

Please see my formal objection dated 14th Sept.
I didn't get a response from the SoR !

Subject: Point Samson conceptual Foreshore plan.

Dear Sir/Madam,

I have just been made aware of the proposals for the Point Samson Foreshore.

There are some good initiatives/intentions with the plan which I'm sure will be a positive outcome for the town but, I strongly object to the proximity of short term Car Parks/amenities across the road from residential housing. I refer to the proposed short term car park/amenity at the junction of Meares Drive & McCourt St & near the Look Out.

I don't think it necessary to have a Car Park/amenity or access to the beach at the McCourt St location when there is a designated access to the beach 100m up the road. Furthermore, I feel we should be encouraging people to exercise & walk. The Car Park at the Hall is underutilised. Signs could be placed there i.e. Scenic walk along Meares Drive to Look Out.

The problems for residents created by a Car Park/amenity on Meares Drive, far outweigh the benefits for the following reasons:

Traffic constantly coming & going, dog/people/traffic interaction, dog excrement, reverse horns, litter, rowdy behaviours, burn outs, drinking, drugs, car doors open/windows down with loud music.

There is also a concern idle minds may lead to vandalism & mischievous behaviours which residents will bear the brunt of.

Another intrusion of privacy residents will endure is, motorists parking on the verge directly in front of properties, regardless of whether the short term car parks are full. To put our concerns into perspective, just a few people loitering across the road having a conversation is noise pollution.

Some of the above issues are already, to a small degree, a problem for residents. Car Parks & amenities will only serve to exacerbate an undesirable situation which is in our face, so to speak.

My family & our guests enjoy time spent on the east side of the house, soaking up the view in peace & quiet & so do other householders at their place of residence. We'd like to continue enjoying the ambience.

I urge you & the committee to think carefully about the impact to residents who have invested here. In planning the town's future, we all need to be mindful to engineer out potential trouble spots.

I look forward to your response.

Kind Regards,

31/10/2013

Ian & Judy Banks
