There must be concerning issues that are keeping Karratha and its community up at night!

These issues are exactly why I am putting myself out there. Someone to listen, sometime to invest, someone that can relate, because I too am someone like you. Am I your average candidate? Not at all.

I'm unorthodox, unapologetic and I'm raw. But it's these very attributes that uniquely position me to project the communities truth at our Council table. Let me be the point of difference to be genuinely heard, beyond the likes of just a digital moaning platform.

Allow me the honor and precious opportunity to give back to this beautiful community that has embraced and continued to support my family and myself. I am the perfect example that ANYTHING is possible in this town.

I'm Aphrodite

Let's do this!
